

SONESTA

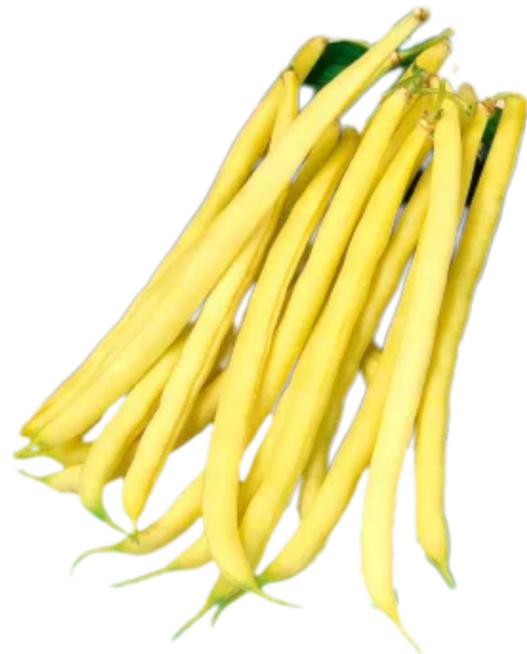

Bean
Bush

Phaseolus vulgaris

Sonesta is a compact, early-maturing bush French bean known for its tender, stringless yellow pods. It produces high yields of slender 12–15 cm pods and shows strong resistance to common diseases. Ideal for fresh use, freezing, or processing.

Properties	
Variety name	
Species	<i>Phaseolus vulgaris</i>
Common name	Yellow French bean
Family	Fabaceae
Type	Bush/dwarf bean
Days to maturity	55–60 days
Pod length (Inches)	4.7–6 in (12–15 cm)
Plant height	4–24 in (35–60 cm)
Pod color	Yellow
Average Sieve Size	6.5
